

Dear FCC,

Just a short note to express how grateful I am for the impact K-Love radio has on my life and the greater Denver metro area, in fact the whole Colorado countryside. Why can they impact so many teens and family's with a positive message, it is because of their cost savings due to translators. Please do not allow LPFM to displace radio stations like K-Love which run on translators. Music is one of the greatest impacts on teens' lives and K-Love offers a positive, life-giving, loving alternative for people throughout Colorado. Thank you for keeping the translator system in tact.
